Amendments to the Abstract

Please replace the abstract of the disclosure with the following amended abstract of the disclosure:

A computer apparatus for implementing a workflow, the workflow ~~being~~ defined by a sequence in which ~~of~~ activity nodes that include a plurality of interactive nodes must be performed, the computer apparatus comprising a processor for arranging and initiating the execution of the activity nodes in accordance with the defined sequence, wherein each interactive node is arranged to allow a user to input data for use in the execution of an activity node, the processor being arranged to analyse the user input data to determine the interactive node in the sequence of activity nodes to which the user input data is associated.
